

## Aims and Scope

The *Journal of Microorganism Control* provides a medium for the publication of original full-length articles, concise notes, and review and minireview articles on all aspects of science and technology of microorganism control. Such areas include:

1. Food microbiology, pharmaceutical microbiology, medical microbiology, environmental microbiology, and microbial ecology concerning microorganism control
2. Stress response, injury and repair, and adaptation in microorganisms
3. Methodology for rapid, accurate or automatic detection and measurements of microorganisms and their activities and the evaluation of control
4. Chemical synthesis, antimicrobial activity, and the mode of action of biocides and biostatic compounds
5. Naturally occurring antimicrobial compounds
6. Sterilization, disinfection, cleaning, and sanitation
7. Control mechanisms and principles of control
8. Control technology and control systems
9. Control theory and predictive microbiology
10. Biodeterioration and preservation of food, pharmaceuticals, wood, water, wastes, textiles, industrial materials, buildings, paints, oils, lubricants, metals, rubbers, plastics, etc.
11. Biofouling and biofilm
12. Contamination and infection by bacteria, fungi, and viruses
13. Biodegradation, bioremediation, biological insecticides and other techniques of utilizing microorganisms
14. Process control of bioproduction and fermentation control
15. Biohazard and its control
16. Maintenance of microorganisms and their activities

## Subscription Information

The *Journal of Microorganism Control* renamed in 2023 from the former *Biocontrol Science* is published quarterly every fiscal year (from April to March next year). The subscription fee in a fiscal year is (1) ¥4,000 for the domestic members, (2) ¥10,000 including the membership dues for the overseas members, or (3) ¥6,500 for subscribers outside Japan (without the membership dues). The membership dues (¥9,500) include the subscription fee of the Japanese journal, *Journal of Antibacterial and Antifungal Agents*. Please address all requests regarding orders and subscription queries to The Society for Antibacterial and Antifungal Agents, Japan, 1-13-38 Nishi-honmachi, Shin-Kosan Bldg., Nishi-Ku, Osaka 550-0005, Japan, Tel: +81-6-6538-2166, Fax: +81-6-6538-2169, E-mail: boukin@nifty.com.
